Introduction

Rowad Al Madar For Maintenance is a leading company in the field of maintaining and operating mechanical and electrical equipment and providing various after-sales services.

The company currently includes 5 maintenance branches in the kingdom. These branches operate with an advanced maintenance program that informs the customer of the different stages during the equipment inspection process until receiving it. And because we are always keen on excellence, we provide the best services at the best prices with the help of engineers and technicians specialized in the electrical and mechanical fields.

Our Services

Makita Power Tools

We offer expert repair services for all Makita power tools, catering to every model across the Kingdom.

50 HP Rewinding

We offer certified rewinding services for all motor types up to 50 horsepower, ensuring quality through recognized standards and rigorous testing.

Generators Overhauling

We deliver comprehensive engineering solutions for generators of all brands. Additionally, our 24/7 emergency services ensure that you're covered in the event of a power failure.

Carbon Brush Production

We manufacture a diverse range of carbon brushes, adhering to high-quality standards recognized globally.

Mechanical Works

We specialize in overhauling, repairing, and maintaining a wide range of industrial equipment, including air compressors, heavy machinery, and construction equipment. Additionally, we offer customized engineering tests and data collection services to help diagnose and address unique equipment challenges effectively.

On-Site Services

We provide expert on-site services for motors and generators that cannot be relocated due to production demands or size constraints. Additionally, we offer customizable service and maintenance agreements tailored to meet our customers' specific needs.
